BOCES Support and Coordination

## POWERSCHOOL DATA SUPPORT AND COORDINATION SERVICES

### OVERVIEW

---

This document represents a Service Level Description (SLD) between subscribing Local Educational Agencies (LEA) as the subscriber and the Northeastern Regional Information Center (NERIC) as the provider for the provision of **PowerSchool** support and coordination services. The document outlines the parameters of the services as they are mutually understood.

### SERVICE DESCRIPTION

---

NERIC provides PowerSchool support and coordination. Services to districts are based on district needs, as well as required coordination and interaction with the vendor.

PowerSchool is an innovative Web-based tool that provides timely data that is easy to find and analyze, making vital information accessible to all stakeholders over the Internet and in a secure environment. PowerSchool Premier enables today's educators to make timely decisions that impact student performance while creating a collaborative environment for parents, teachers and students to work together in preparing 21st-century learners for the future.

#### Billing Codes

CoSer: 604-7710

Service Codes: 604.420

#### Pricing

Pricing for **PowerSchool** support services are based on NERIC's 2016-2017 service costs and are subject to adjustment based on additions or removals.

### GOALS & OBJECTIVES

---

The goal of this document is to ensure that the proper elements and commitments are in place to provide consistent service support and delivery to the subscribers of this service. The objective of this Service Level Description is to clearly articulate the roles and responsibilities of the NERIC as a service provider and the LEA as a service subscriber.

### CONTACT INFORMATION

---

Michael Riggi, managing program coordinator, (518) 862-5418 or [michael.riggi@neric.org](mailto:michael.riggi@neric.org)

BOCES Support and Coordination

## SERVICE MANAGEMENT

### SERVICE ONBOARDING

---

If a district is interested in purchasing PowerSchool, a custom training and conversion schedule will be provided to the LEA in advance of the final purchase decision.

### SERVICE AVAILABILITY/COVERAGE PARAMETERS

---

The goal of the **Student Information System** support services are to provide the subscriber with access to enterprise-level, cost-effective and efficient support.

- Eastern Suffolk BOCES is responsible for assuring the delivery of services during core business hours (each weekday from 8 a.m. to 4 p.m.). This does not include after-hours, weekend and/or holiday support, however the Eastern Suffolk BOCES will make a best effort in providing support for board meetings and/or other scheduled special events, as requested and applicable.
- Subscriber will provide sufficient notice of planned technology initiatives to ensure timely completion. In cases where sufficient notice is not provided by the subscriber, reprioritization of incidents/service requests may result in delayed service delivery times.
  - In instances where the NERIC is unable to meet *subscriber requested service delivery dates*, subscribers may have the option to purchase additional resources. Additional service charges may apply.
- Non-standard services may require project planning, with the appropriate NERIC service provider, to determine project costs and delivery dates.

### SERVICE REQUEST PROCEDURES

---

#### Incidents and Service Requests

The process for all subscriber incidents and service requests begins by making contact with a member of the PowerSchool team, (518) 862-5454, option 5, or email [powerschool@neric.org](mailto:powerschool@neric.org).

Additionally, a ticket about subscriber incidents and to request service may be submitted through the ServiceNow portal, <https://bocescr.service-now.com>, or by phone at (518) 862-5400 or (800) 205-0735.

- **Incidents** - Application(s)/technology inquiries that require troubleshooting/response.
- **Service Request** - A new technology initiative where subscriber and service provider must determine the scope of work and service to be delivered.

# Service Level Description

BOCES Support and Coordination

## INCIDENT RESOLUTION TIMES

It is the expectation that Eastern Suffolk BOCES, as the service provider, will respond to customer service requests within four hours (during scheduled business hours each weekday from 8 a.m. to 4 p.m.) of receiving the request. This does not mean that the ticket will be resolved in that time period, but the customer will receive a response that the Eastern Suffolk BOCES is aware of the request and will facilitate a solution in a timely manner, allowing for triaging of incidents.

The Incident Resolution Schedule (below) shows the incident priority, target assignment, target status update and target resolution time for a subscriber's documented incidents. Each incident is defined as:

**Priority** - The NERIC Contact Center assigns a priority to every incident or service request that is initiated. The **NERIC Prioritization Model** is used to ensure a consistent approach in defining the sequence in which an item needs to be resolved and to assign appropriate resources.

Under the **NERIC Prioritization Model**, priority assigned to a ticket depends upon:

1. Impact on the business: Size, scope and complexity of the incident
2. Urgency to the business: Time within which resolution is required
3. Resource availability (NERIC, district, vendor)
4. Expected effort in resolving or completing a task (NERIC, vendor, contractor)

**Target Assignment Time** - the total time from ticket creation to the time that the ticket is assigned to a technical resource responsible for resolving the incident.

**Target Status Update Time** - the time interval that the Service Desk has to update the ticket status for the customer who reported the incident.

**Target Resolution Time** - the total time from ticket creation to incident resolution and restoration of service to the user. Service may be restored either by a workaround or by a permanent solution. NERIC strives to resolve ninety percent of incidents within the timeframe specified for each priority. Resolution times are measured in business hours unless otherwise specified and include:

Priority	Target Assignment Time	Target Status Update Time	Target Resolution Time
<b>Critical</b>	10 Minutes	Every 60 minutes or as agreed upon by customer	4 hours
<b>High</b>	1 Hour	Every 2 hours or as agreed upon by customer	8 hours
<b>Moderate</b>	4 Hours	Upon request	28 hours
<b>Low</b>	16 Hours	Upon request	32 hours

## ESCALATION PROCEDURES

---

Begin the escalation process when:

- You have not received a response to incident or service request within four hours or as defined in the Incident Resolution Schedule above.
- The response you received to your incident or service request is unsatisfactory.

The escalation process begins by calling the contact listed in Escalation Step 1 (below).

If after completing Escalation Step 1, you do not receive a response within the specified Target Resolution Time above, proceed to the next Escalation Step.

## ESCALATION CONTACT LIST

---

Escalation Step 1: Michael Riggi, managing program coordinator I, PowerSchool, (518) 862-5418 or [michael.riggi@neric.org](mailto:michael.riggi@neric.org)

Escalation Step 2: Jeffrey Luks, managing program coordinator II, Student Services, (518) 862-5381 or [jeffrey.luks@neric.org](mailto:jeffrey.luks@neric.org)

Escalation Step 3: Roxanne Pombrio, NERIC assistant director, (518) 862-5427 or [roxanne.pombrio@neric.org](mailto:roxanne.pombrio@neric.org)

Escalation Step 4: Dale Breault, NERIC director, (518) 862-5424 or [dale.breault@neric.org](mailto:dale.breault@neric.org)

## MAINTENANCE SCHEDULE(S)

---

If PowerSchool hosting is purchased through NERIC, the vendor, PowerSchool is responsible for all scheduled updates and maintenance. NERIC has no control over this schedule, though we try to work closely with the vendor and the LEA to ensure the enough notice is provided. The vendor typically performs updates outside of regular school hours.

## DATA CONFIDENTIALITY ASSURANCES

---

Please be advised that subscribing to this NERIC service authorizes NERIC to access student PII or confidential teacher or principal data (hereinafter referred to as “confidential data”).

NERIC does not sell or release confidential data for any commercial purposes. Access to confidential data is restricted to approved and authorized staff only. Access to servers containing confidential data is controlled through the use of a firewall, secure networks and user directory service permissions.

In addition, NERIC will ensure that all subcontractors or other third-party vendors will sign appropriate non-disclosure agreements and/or confidentiality agreements.

After a contract is terminated, NERIC will destroy all copies of relevant databases and related internal backups will be destroyed within thirty days. Any physical data will be stored for the time period required by law and then destroyed.

Any breach of the NERIC’s confidential data that compromises the security or integrity of confidential data will be promptly reported by the NERIC to the superintendent of the school subscribing to the service, to the BOCES Information Security Officer, to the BOCES District Superintendent and to the New York State agencies as required by Education Law section 2-d; State Technology Law, section 208; and Labor Law section 203-d.

## PERIODIC REVIEW

---

Provider and subscriber will review the Service Level Description bi-annually (or as required) concurrently with the acceptance of the annual BOCES Final Service Request (FSR)/Annual Service Contract (AS-7).

- This document is governed by the operating procedures and policies as outlined in the NYSED BOCES Administrative Handbook.
- Customers may request a review of the service level description at any time by contacting their service level manager and/or Technical Account Manager (if applicable).
- The Service Level Description will require a review under any of the following conditions:
  - a significant and/or sustained change to the delivery of services.
  - a significant change or departure from the agreed upon Service Level Description and/or comprehensive technology inventory.
